

Air Pollution Control Technology Memorandums

MEMORANDUM

There will be a meeting on 10/12/99, of the Stakeholders Advisory Committee (SAC) for the Environmental Technology Verification (ETV) Pilot Program in Air Pollution Control Technology. The meeting will be at the EPA's Environmental Research Center's Auditorium, 86 T. W. Alexander Drive, Research Triangle Park, NC. The meeting will start at 8:30 AM. and end at approximately 4:00 P.M.

The meeting is open to the public. Meeting topics will include status reports on technologies that have been selected for verification testing (paint overspray arrestors, add-on NOx controls, baghouse filtration products, and emission control systems for wood products facilities) and a discussion of potential new technologies to be selected for testing.

If you are interested in attending, contact Jack Farmer, Research Triangle Institute(RTI), by fax at (919) 541-6936 or by e-mail at jrf@rti.org. The goal of ETV is to verify the performance characteristics of commercial ready environmental technologies so that potential purchasers and permittees are provided with an independent and credible assessment of the technology they are buying or permitting. RTI and EPA are partners in this ETV pilot program.

We have made arrangements with The Radisson Governors Inn for rooms the evening of October 11, 1999. The rate quoted is \$96 (and tax) for single (with queen bed). Shuttle service to/from the airport will be provided as well as to the SAC meeting. The shuttle will leave The Governors Inn around 8:00 a.m. to arrive at RTI before 8:15 a.m.

Guests must call and make their own reservations (be sure to state "ETV meeting hosted by RTI") . They are holding 15 rooms. The cut off for reservations is 9/27/99 and there's a 72-hour cancellation policy. The telephone # is 919-549-8631.

We will be making arrangements for lunch to be served, so I would appreciate everyone letting us know if you will be attending.

Travel information, including a listing of local hotels and directions to RTI, is available at <http://etv.rti.org/apct/travel.html>.
